## BIG 4TH OF JULY CELEBRATION AT MOKENA

The Mokena Men's Club have completed arrangements for an extensive program of races and other out door sports to be held on the afternoon of July 4th in connection with their picnic.

Races and other athletic field events for men, women and children will be held at 2:30 p. m. and valuable prizes will be awarded the winner of each contest.

The committee in charge of these events assures everyone a good time, so lock up your places of business and your homes and beat Cappel's Grove not later than 2:30 p. m.

## Mokena Timber

### Sawed Into Lumber

The timberland in this section is being so rapidly depleted that within a few more years there will be no vestige of woodland. Thousands of feet of lumber have been sawed out of the trees on the old Judge Marshall place west of here. The best trees were converted into lumber and the scrub wood cut up into cordwood. The heavy wooded land west of New Lenox is also being cut over. The lumber mill has been in operation there for a year and thousands of feet of good lumber have been shipped out from this point.

The Men's Club will hold an afternoon and evening dance at their pavilion in the Cappel Grove, Fourth of July. There will be races and games in the afternoon.

News has been received here of the death of Henry Brinkmann formerly of Mokena, now located at Midlothian. Mrs. Brinkmann died at her home in Chicago on June 21st.

The Rock Island steam ditcher which has been working at Morris has returned to finish work here.

Mr. and Mrs. John Mattes left Thursday morning at 2 o'clock on their auto trip to Maunston, Wis., where they will spend the Fourth.

Edna Borge is busily engaged in the painting line this summer. He has just completed a big job for David Kolber and has finished painting the new dwelling of George J. Hacker.

The Sunday School picnic held Saturday in the village park by the St. John Evangelical Village School was very largely attended in spite of the threatening weather. The total proceeds taken in amount to over \$300 which is considered excellent. Had the weather been more favorable a much larger sum would have been realized.

Miss Dorothy Miller, who has been very ill and who was somewhat improved, has had a relapse again and is confined to bed.

Mrs. George Cooper of Plainfield visited with her mother, Mrs. W. H. Bechstein the forepart of the week.

Miss Blanche Hammill of Marrasa, Ill., who had been engaged as one of the teachers of the Mokena public school, has resigned on account of illness so the Board of Education is looking about for another instructor.

The Lutheran Immanuel church of Mokena will hold their annual picnic in the Cappel Grove on July 17th. A good time assured for all. Everyone is invited.

The oil well project is speeding up and it looks as though there would be something doing soon. Very nearly all the ground floor shares have been snapped up and the trustees held a meeting at the W. C. Schmuhl home Monday night for the purpose of going over a list of oil well drillers. Bids will shortly be received for sinking the proposed well. If the project is successful, then this territory will be a second Eldorado. A big boom will surely follow the striking of oil. Illinois is rich in oil and there are thousands of wells in this state producing a big flow of oil.

This week the Rev. W. J. Kemnitz of the local Immanuel Lutheran church is attending the annual convention of the North Illinois District of the Missouri Synod in Chicago. L. Schweser

## CHEF TO TAKE CHARGE OF OAK FOREST MENUS

### Campaign For Good Food Is Ended

A chef, qualified as a dietician will be immediately appointed by the government public health service, to supervise the feeding of former service men now at the tuberculosis hospital at Oak Forest, it was announced by E. M. Walker at a meeting today of directors of the Association of Commerce.

Decision of the government to accede to the demands of the Association of Commerce directors was contained in a letter to Mr. Walker from C. W. Spofford, district manager of the Bureau of War Risk Insurance at Chicago.

The letter read: "I am glad to inform you that authorization has finally come for appointment of a special chef to serve our ex-service men in the Cook County Tuberculosis Sanitarium at Oak Forest."

The association directors about a month ago appointed a committee consisting of J. R. Blackhall, Fred Chamberlin, E. M. Walker, J. O. Barrett and A. A. Hill to investigate conditions and secure relief for the former soldiers in the matter of food. Undercooked and overcooked meat, hard-boiled eggs, inedible vegetables of various sorts were complained of by the men.

The committee conferred with General Davis of Chicago and he bustled Mr. Walker through a long maze of governmental routine the objects of which were to secure the objects of the association.

## Lightning Rods Are

### Good Protection

Lightning rods are coming back in their own accord to reports showing that farm buildings equipped with such rods have been secure from fire caused by lightning. This summer very heavy thunderstorms have swept this country and many buildings have been struck by lightning. The Green Garden Fire Insurance Company reports that they have had very small loss to adjust thus far as the damage from lightning has been confined to the tearing off of a few boards or other slight damage on buildings equipped with lightning rods. Lightning was exceptionally severe last Sunday. At the Wm. Delaney farm southwest of New Lenox, lightning struck a nail on the house and traveled to a window catch just as members of the family were closing an open window. The lightning entered the room burning the clothes and hands of the family near the window and stunning others in the room. At the Louis Eberhardt farm southwest of New Lenox, lightning struck the house but as it was a cold stroke, no serious damage resulted.

## Gypsies Hold up Truck Driver

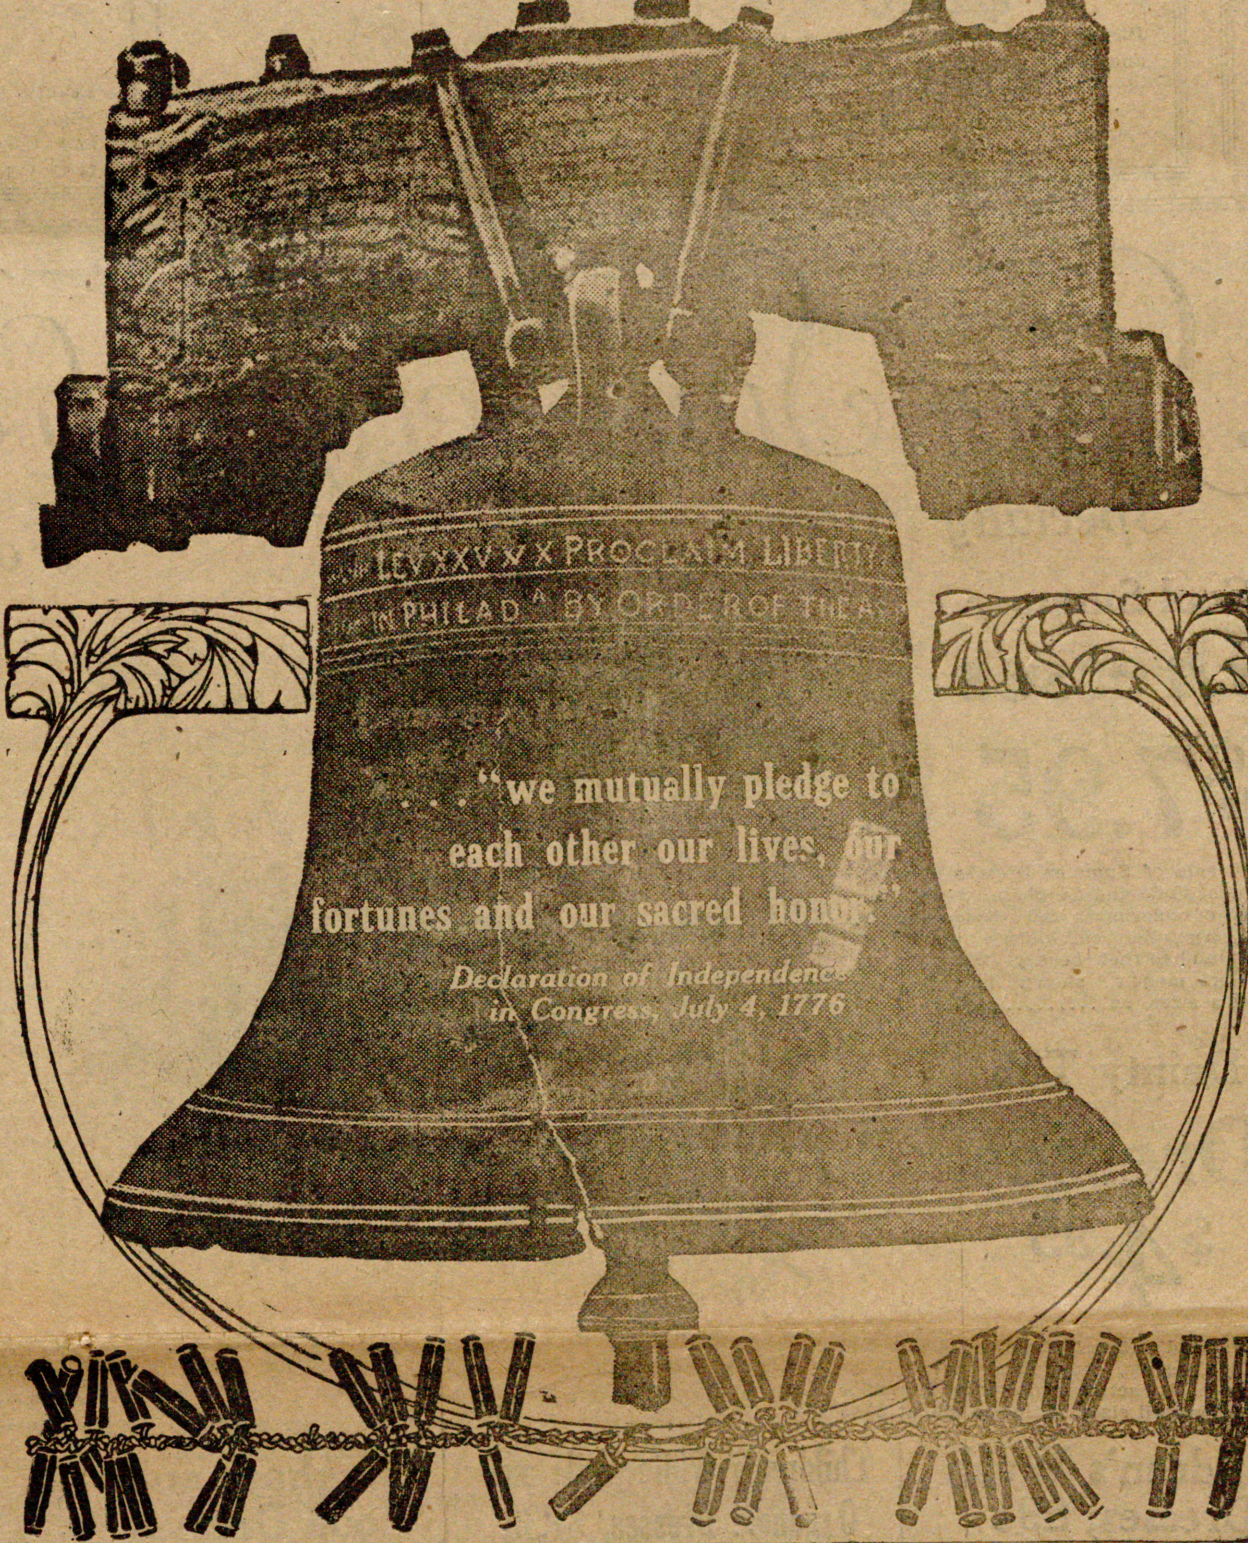

The past week gypsies have made their appearance in and around Frankfort. A story was brought to town by some negro truck drivers about the holdup of one of the drivers on a country road near Frankfort. It appears a gypsy asked him for a match which he gave her, then she asked him for a penny which he also gave her and then other members of the gang appeared armed, and relieved the driver of \$65 in cash. The driver got some of the other drivers to go with him and made a raid on the gypsy camp taking away their guns and recovering the money.

and Fred Werner are attending as delegates from Mokena.

Peter McCarthy, Supt. Morning Star Mission, Joliet, will speak at the M. E. church on Sunday afternoon at 2:30. Albert Hodell is having his house stuccoed.

Mrs. Matt Cation and daughter, spent Friday with her parents Mr. and Mrs. Julius Oswald

## Proclaimed Day of Liberty

## New Lenox Set for Chautauqua

Everything is readiness for opening of the Chautauqua at New Lenox July 9th. A fine and inspiring program will be given at each session. Complete program for each day appears in advertisement on back page in this issue. Clip it and save it as it may come handy.

### FRANKFORT.

Mr. and Mrs. James Hunter left Saturday for Wheaton to spend the 4th with the former's parents, Joseph Hunter.

Lucille Folkers is in New York city.

Miss Sable of Chicago is visiting at the home of Harry Bolchowsky.

Mrs. Kate Helms Johncity, Ill. is visiting at the Ed. McGovney home.

Born to Mr. and Mrs. Ed. Strassenberg a son.

### Smelling Salts.

Smelling salts can be made by placing a few lumps of ammonium carbonate in a bottle and covering them with oil of lavender. The cost, according to Experimental Science, is very slight, and the product is as good as some of the product now on sale.

### Not a Chance.

A stranger reported to a police officer that his grip, overcoat and umbrella were stolen before he was in town two hours, and he said: "There will be an awful reckoning in this burg when Gabriel blows his horn over it."—Lackawanna Journal.

### The Unforgivable Defects.

"There are only two crimes men never forgive women; one is plainness accompanied by dullness; the other is dullness accompanied by plainness."—"The Indignant Spinsters," by Winifred.

### New Aquatic Sport.

A new aquatic sport is afforded by a buoy in which a person is kept perfectly dry, his legs encased in trousers on which are fins with which to propel himself through water.

## Mokena Club Will Attend Picnic

The Home Improvement Club met at the home of Mrs. Woods Thursday afternoon. There was a good attendance and the program much enjoyed. On July 17 at Highland Park Joliet, all the Home Improvement Clubs of this County will have an all day picnic. It is thought a good number of the Mokena members will attend. The next meeting of the club will be at the home of Mrs. E. P. Krapp on August 25.

Mrs. Dolph and son who have been spending a few weeks with her daughter Mrs. Erhardt Oswald, returned this week to her home in Guthrie, Oklahoma. Mrs. Dolph says Mokena is just as hot as Guthrie.

## Marley

Don't forget about the 4th of July picnic at Storm's Grove. You have been there before you will want to come again.

Sunday at 11:00 A. M. at the Marley church the Rev. Henry Rust will deliver a patriotic sermon.

Mr. and Mrs. Geo. Battleday of Brook, Ind. were guests of Mr. and Mrs. Bert Spiese.

Mrs. Giblett of Clinton, Iowa is visiting at the Richard Gorham home while her husband Rev. J. S. Giblett is attending the North Baptist convention at Des Moines, Iowa. He was the pastor of the Marley church when it was located in Hadley.

## Green Garden

Mr. & Mrs. Ed. Staffenberg and daughters Verna, Lillian, and Gladys of Groton, So. Dakota are visiting with the former's father Peter Staffenberg and sister Mrs. J. Bankow and other friends and relatives here this week. Mr. Staffenberg used to be a resident here after selling his farm of 140 acres in sec. 7 to Wm. Roemer of Tinley Park about 10 years ago purchased a section of land in So. Dakota where he is now living. They made the trip by motor.

Mr. & Mrs. Fred Hafka were Chicago visitors Friday.

Miss Myrtle Schoop is attending summer school in Joliet.

Born to Mr. and Mrs. Chas. Bobzin an 8 lb. boy Wed. June 22, mother and babe are doing nicely.

Several friends and relatives gathered at the home of Albert Steinberg and helped him celebrate his birthday.

The Sunday school picnic given by the Green Garden and Peotone town line church was well attended.

A birthday party was held at the home of Herman Schoop, cards were played.

The Henry Bruggeman Thresher Co. received their new threshing machine Thursday which they purchased of Heusner, Mauger and Geuther last fall.

Wm. Fry of Joliet spent Sunday at the home of his sister's Mrs. Griffin Marshall.

A committee composed of Mrs. Henry Rust, Mrs. Ed. Werner, and Mrs. Kercheval met at the latter's home Tuesday to outline plans for the bazaar to be held this fall.

### For Baby.

There are possibilities in the barrel hoop. Let the male member of the family cut it in one place for you, then wind it with ribbon of a desired tint, snap it across baby's crib or buggy and tie the tops on. While you are busy you will not be interrupted to pick up the things he has thrown down.

## MISS GLOGOWARTZ OF TINLEY PARK WEDS MR. LUTZ

Miss Louise Glogowart, daughter of Mr. and Mrs. Henry Glogowart and Delbert Lutz of Chicago were quietly married at the home of the bride Wednesday afternoon at four o'clock, Rev. A. Buddenhour of the Zion Lutheran Church officiating. The ceremony was witnessed by the family of the bridal couple only. The attendants were Miss Adaline Glogowart, sister of the bride and Edward Lutz, brother of the groom. The bridal couple have gone on a wedding trip. The future home will be in Chicago.

## BULL FROGS LOSE

The Bull Frogs lost their game to New Lenox last Sunday by a score 8 to 7. They had the New Lenox team beaten by a score 5 to 0 in the 6th inning but mishap and poor support in the last 3 innings lost the game. C. Holstein playing third sprained his ankle at a critical point of the game and pitcher Weyman, who is not ed for coolness, lost his head in the 7th inning wacking and hitting men continually. Next Sunday the Bull Frogs will play Monro at Tinley Park on Fulton Field and on the 4th of July will travel to Oak Forest to play the team there. A good game is looked for both days.

During a heavy thunderstorm which swept this vicinity last Sunday, lightning struck the Tinley Park school house the striking the flag pole and traveling down same slanted across the roof.

The Three Arts Club members enjoyed a wienie roast in the woods Wednesday night.

George Kott is building a new barn replacing the one struck by lightning.

The Bull Frogs ball team will give a dance at Linden Garden on July 16. Music by Andy's Jazz Marines.

The Ladies Aid Society of the Zion Lutheran church will meet next Wednesday.

Miss Thompson of the training department of the Bell Telephone Company visited the local exchange Monday gave instructions to the operators.

Edward Mohr has opened a new barbershop in the Hollstein building. He is a graduate of a Chicago Barber School. Tinley Park now has three barbershops.

Val. Scheer who had his left eye burned when lime splashed in it, is improving nicely.

### Rooster and Road.

Why does a rooster cross the road? He doesn't. He gets half way, and a car hits him.—Nashville Tennessean.

### Fastest Star Can't Be Seen.

The fastest star travels through space at a speed of about 300 miles a second. This celestial racer is invisible to the naked eye, but has a number of other means of identification for the convenience of astronomers.

### Hadn't Adjusted Chains.

Jane was taking her music lessons. She was playing the C scale. She played some notes faster than others. The teacher asked her why she hurried, and Jane answered, "Oh, my hand skidded."

### Bear Dream Not Alarming.

To dream you see a bear signifies you have a rich enemy, but not cunning. To be attacked by a bear denotes persecution, which you will overthrow when it seems most hopeless.

### Texas Legal Definition.

An alibi is when you prove you were somewhere else at the time you committed the crime.—Dallas News

### More Modest, Perhaps.

Men, of course, are prouder of their college degrees than women; witness the fact that male college graduates of the class of '90 like to sport the figures after their names, and women do not.—Boston Transcript.

For reasons answered.  
of economy a certain dowager had to part with her butler, relates an English exchange. She gave him a cordial reference to a prospective employer. A few days later she was annoyed to get a catechism of questions from this lady: "Was he courteous, gentle manly, honest, and of distinguished appearance?" To which she replied: "The Dowager Lady Blank wishes to say that if her butler owned a horse the virtues enumerated she would have married him herself years ago."

Life as I See It.  
I'll be truthful about it. I don't see why a beautiful woman needs any sense.—Louisville Courier-Journal.

The Beard in Dreams.  
To dream you have a long beard denotes long life. If black, you will have great troubles. If red, shame and disgrace will follow you. If white, cunning and success in your undertakings. To pull or shave the beard betokens loss and disappointment. If a young lady dreams she has a beard, she will marry well. To dream you are beardless is a sign of riches. To wash the beard is an omen of sadness.

West Africans and the Dictionary.  
The "educated" West African negro reads the Babu in the artless art of misusing English polysyllables. As he appears also to nourish get-rich-quick ideas he bombards firms whose names he finds in the directory with proposals to do big business. A Manchester man who collects these epistles has just received one which winds up with "trusting you are to the same homogeneous category, yours equitably, E. E. Atkins."—Manchester Guardian.

It is a senseless practice to cut children's ears, and arises from a foolish superstition. Many years ago it was thought that backward children could be cured by making an incision in a certain part of their ears. The belief exists in some parts of the country today, the operation being performed usually by a woman at the change of the moon. Needless to say, it results only in pain and misery for the child.—London Tit-Bits.

Saw the Sunny Side.  
A little fellow of seven, whose optimism was a perpetual surprise to his parents, was being punished by his father. He was sprawling across his parent's knees, and after about six strokes of the cane he muttered to himself: "It won't matter. I don't sit down much."—London Tit-Bits.

Not Unusual.  
"The doctor said I must put down everything on the chart." "Well?" "The patient tried twice to kiss me. Must I put that down?" "I think not," said the kindly head nurse.

Convincing.  
Election Candidate—"Now, my friends, when you vote you don't want to vote for a pig in a poke; you want to vote for me and get the genuine article!"—London Tit-Bits.

That Part Easily Arranged.  
"Where would you go if the landlord doubled the rent?" asks an advertiser. "We can't say offhand, but we do know where the landlord could go!"—Buffalo Express.

America Leads in Cement Use.  
Although Portland cement was patented by Mr. Aspdin, an English engineer, and reinforced concrete is credited to a Frenchman, America has made the most use of them. The manufacture of Portland cement has been brought to the highest state of perfection in this country, and our use of concrete now ranges from the watering trough to the Panama canal. Use of cement has made possible the impressive architectural effect of vast and lofty interiors unencumbered by piers and columns.

Life in Mythology.  
New York Telegram—"It's just possible that Venus mightn't have gotten that golden apple from Adonis." Thasso! In which case Paris mightn't have gone hunting and got killed by a wild bear.—Boston Transcript.

Should Have Been Pinched.  
Two London policemen, in order to obtain evidence against a club, played poker therein, but it was a piker's game. They lost only nine shillings between them.—Boston Transcript.

Rubbing It In.  
She (bitterly)—"My parents literally sold me to you." He (still more bitterly)—"You needn't twist me with my unfortunate financial investment."—Boston Transcript.

Many Such Instances.  
Jud Tunkins says now and then a man gets gloriously located in the Hall of Fame who had difficulty during his life in paying room rent.

Ancient Roman Elections.  
Ancient Pompeians had both primary and general elections, similar to those we have in every town and city each spring. They were in the midst of an exciting local election, it is indicated, when Pompeii was destroyed in 79 A. D.

To say the fitting thing in acknowledgment of a favor is something of a tax on the conversational powers of most people; when the recipient is unfamiliar with the conventional phrases used or gets confused in using them, comical situations occur, as in this instance reported in Harper's Magazine. Two sisters of a deceased cook called to acknowledge the flowers sent by the family. "We came to thank you for those beautiful flowers that you sent for sister," said the elder woman; and then, with a little stutter, she added, "and we hope soon to be able to return the favor."—From the Outlook.

Few Quill Pens Now.  
About the only quill pens one sees in the United States now are on the stage or are ornaments on a lady's writing desk in her chamber. An actor playing the part of a statesman or a king or a general of one hundred or more years ago will write his message with a goose quill pen and instead of using blotting paper will sprinkle sand out of a salt shaker to soak up the surplus wet ink.

A New Missouri Version.  
Charity may cover a multitude of sins, but curiosity uncovers a lot more.—Warrensburg Star-Journal.

Pleasant Dreams!  
To dream of seeing a great number of fireflies, deceit; that you are following a phantom, your wife is false, and unless you are very careful your living will be taken away from you.

Words in the Bible.  
There are 593,493 words in the Old Testament and 181,253 words in the New Testament, of a total of 774,746 words.

**Be True to Yourself.**  
I look upon the simple and childish virtues of veracity and honesty as the root of all that is sublime in character. Speak as you think, be what you are, pay your debts of all kinds.—Emerson.

## World's First Electric Locomotive Was American

Conflicting international claims for the honor of the invention of the world's first electric locomotive seem to have been settled by the discovery of an American machine operated in 1847 and antedating certain German claims by 30 years. The first electric car, shown above, was made by Moses G. Farmer of Vermont. Contrast this little ten-foot contraption with the power at 265-ton, 3,000-volt modern engine of today, shown below.

### RAISED THE FUR HERSELF

Velma Tilden of San Francisco, bought a buck and two does of the Himalayan fur-bearing breed of rabbit for \$35. Within a year she had raised enough rabbits to make this mock-ermine fur coat and hat. The Himalayan rabbit fur so resembles ermine, but for the lack of black tips that only an expert can detect the deception.

### LITTLE FRENCH HEROES

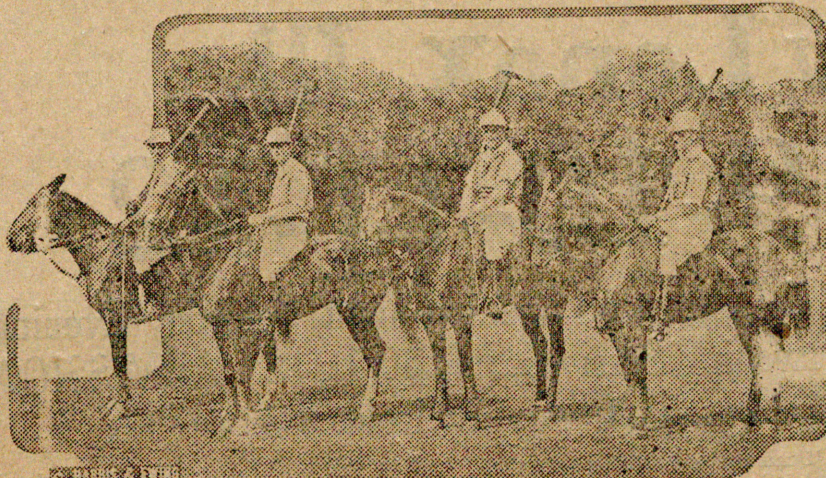

These two French youngsters were photographed just after receiving each a gold medal and 100 francs for bravery in life saving. Nathalie Cole, aged ten, who last Christmas rescued at great danger to herself a little girl friend who was drowning in the sea off the Coast of Brittany. Louis Carlon, aged eleven, saved the life of one of his playmates last September under similar circumstances. Both the children hail from Lesconil in Brittany.

### Possible Oil Formation.

Distilled herring oil, mixed with Japanese acid clay has given K. Kobayashi, a Japanese chemist, an oil resembling crude petroleum. By-products included various fatty acids. It is suggested that Japanese supplies of petroleum and oil gas are similarly formed under natural conditions, these products resulting from the decomposition of the oils yielded by the putrefaction of fishes. The vast quantities of fish life concentrated in schools would explain the accumulation of large deposits of fish remains.

## Cuban Polo Team in Washington

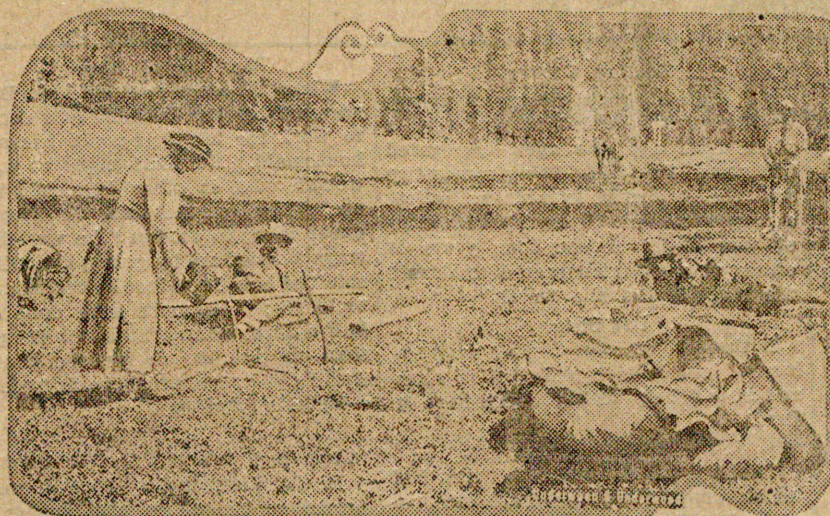

The first of a series of Cuban-American polo matches was played in Potomac park, Washington, with President and Mrs. Harding as guests of honor. Colonel Silva (second from left) in charge of the team, besides being a ranking officer in the Cuban army, is one of the island's foremost educators. He lectured during the pupil's last year.

### MUCH IN LITTLE

Hand spinning wheels are still made in London for export to the Far East. At dinner the King of England's personal attendant waits on no one else.

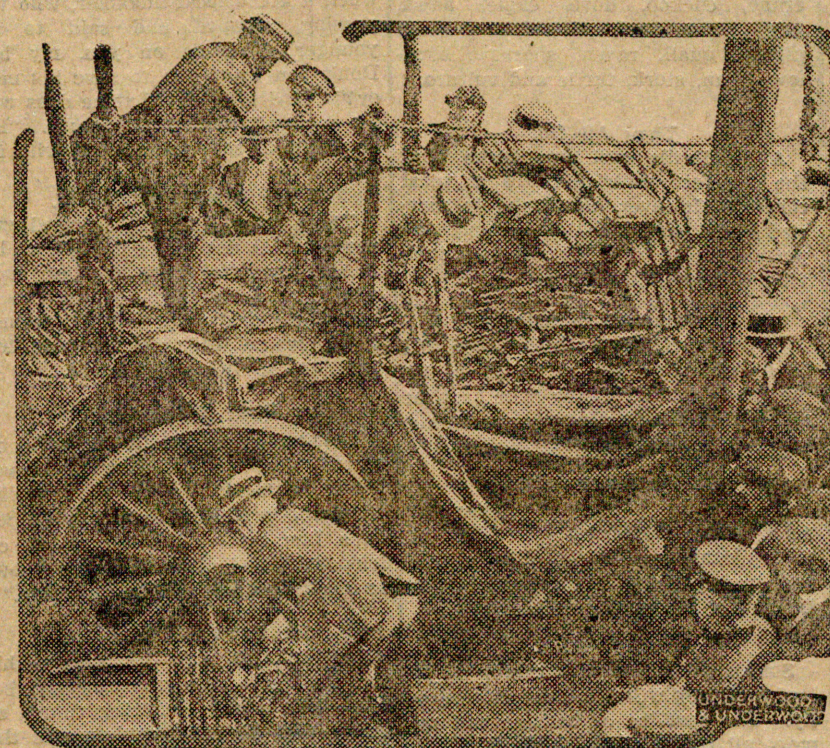

Dark-haired people are more subject to insanity than the fair-haired. Suicides in the United States during 1920 numbered 6,171, including 707 children. In Luxembourg there is a penalty for those who do not record their votes at elections.

## Timely Lesson for the Camper

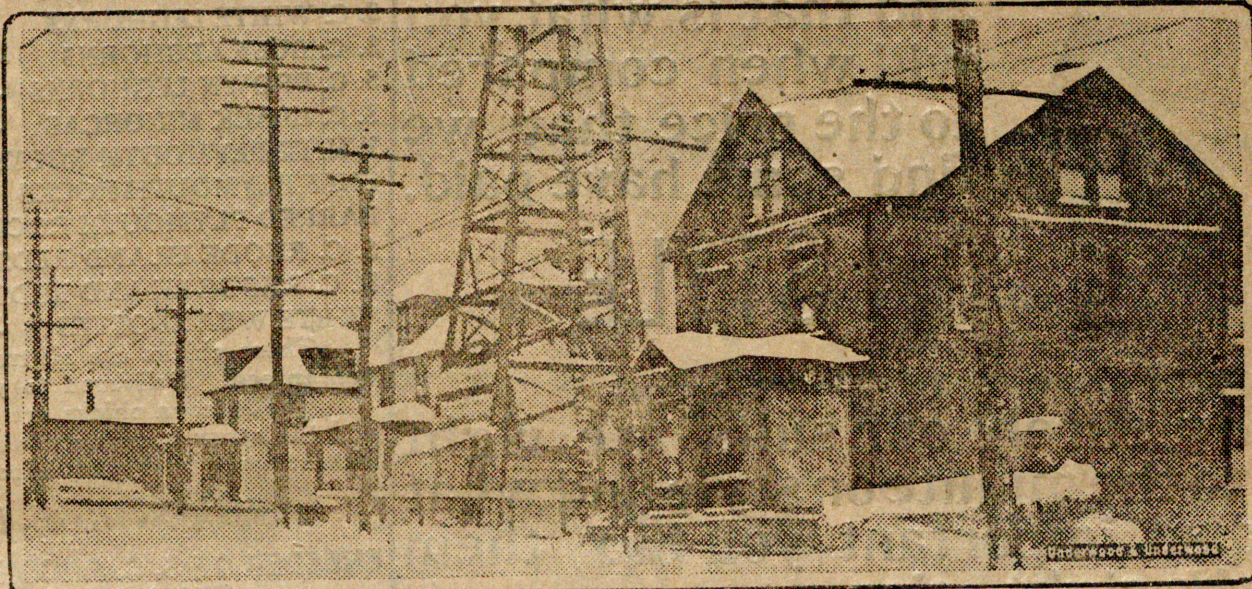

This photograph conveys a timely lesson to all who go camping this summer. No good woodsman ever leaves camp without carefully extinguishing the fire, as this woman is doing.

## Were These Meant for Ireland?

Weapons and ammunition valued at \$125,000, were seized by the police on the Hoboken piers. It is said that the shipment was consigned to Ireland. According to customs officials, the arms had been stored in the hold of a vessel, but had been removed and placed on trucks on the piers. Frank Williams of Hoboken, claims that the arms were stolen from him.

## GAS WELLS AMONG HOUSES IN SNAKE HOLLOW, PA.

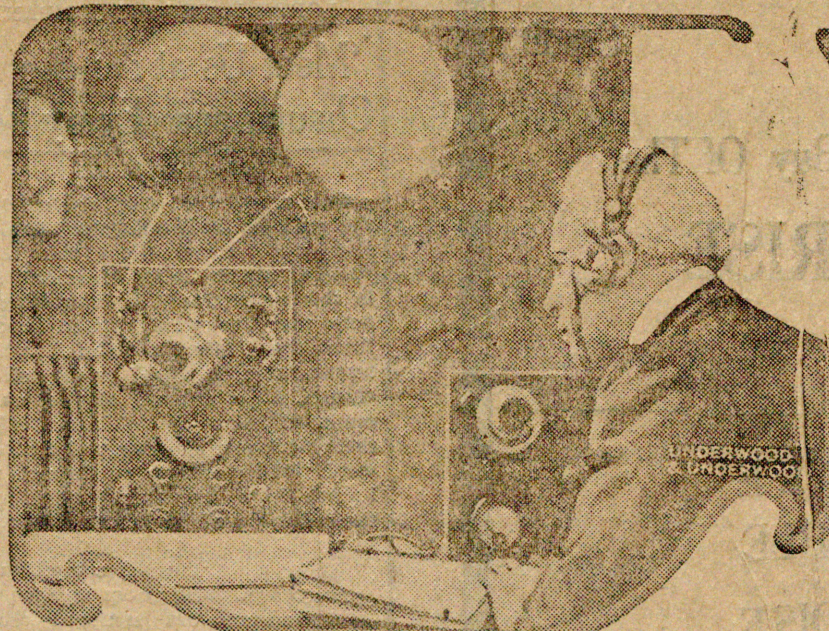

Scene in Snake Hollow, near McKeesport, Pa., the newly discovered natural gas district. The wells are drilled in the streets and among the houses.

## President Invited to Cheyenne

The state of Wyoming has sent a unique invitation to President Harding, asking him to attend the Frontier Days round-up at Cheyenne during the last week in July. The invitation takes the form of a real "four-gallon" cowboy hat. The heavy-chased silver band bears the engraved invitation.

## Marrying Balloonists by Wireless

Rev. Edgar Sherrod of Los Angeles, Cal., is shown here in his study marrying Joseph E. Ramsey and Stella Raub. The bride and bridegroom were thousands of yards away, floating about the sky in the basket of a balloon. The wireless phone was used.

## Paper Hats Worn in Washington

The young women of Washington, D. C., are wearing paper hats now. In revolt against the high prices charged by milliners. Hats like those illustrated can be made for 40 cents.

## NO FRESH AIR FOR HER

Mrs. Elizabeth Dunne of Chicago, who celebrated her one hundredth birthday last April, expects to live at least 20 years more. Mrs. Dunne is interested in politics, and despite her age can sew, darn, and do ordinary housework. She attributes her longevity to the fact that she has always lived inside, and does not believe that fresh air is good for the old.

## YOUNG FOR HIS POSITION

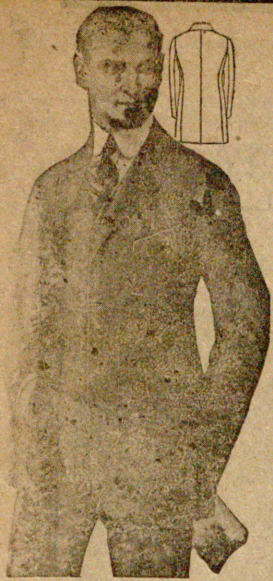

Carl Nyquist, vice president, in charge of finance, and secretary treasurer of the Rock Island lines, is the youngest railway executive in the United States—forty-three years old. His rise in railway circles has been spectacular.

## SHE IS SOME GIRL!

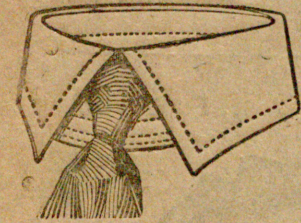

Joan Ehner of San Francisco is called "America's 100 per cent perfect five-year-old girl." She is a diver, swimmer, dancer, pianist and linguist, and is here seen doing one of the stunts that keep her in condition.

**Writing Materials.**  
One must always be reminded of  
the quill by the word "pen," because  
that word comes from the Latin  
"penna," which meant "feather," and  
in this connection it is interesting to  
note that our word "pencil" comes  
from the Latin "pencilus," which  
meant "a little brush" or the tail or  
"brush" of an animal. Also let us be  
reminded that the Romans called  
their black ink, blacking, and that our  
word "ink" comes to us through the  
French from "encustum," which was  
the red ink used by Roman emperors.

**Meat Imports from China.**  
Chinese meats imported into this  
country consist of hams and sausage.  
The hams are cured in a unique  
manner and of good quality. The  
sausage is of a very peculiar and  
palatable nature. The meats are  
imported from the province of  
Szechwan, and are of a very high  
quality. The meats are imported  
by the Chinese, who consider  
them quite a delicacy.

**Somewhat Overnamed.**  
While the majority of parents are  
content with one or two Christian  
names for their children, there are  
others who must have a long string  
of them. Thus there was living in  
England a short time ago a woman  
who had a name for every letter of  
the alphabet, from Anne Bertha Ce-  
cilia to Winifred Xenophon Yetty  
Zeus.

**Dream Lore.**  
To dream of nets indicates that  
your lover or partner in life is not  
so fondly attached to you as you wish.  
To dream you are entangled in one  
denotes a wary and powerful enemy  
who will endeavor to use you for a  
tool.

**Remove Stains.**  
Softened old stains with castor oil or  
lard and they will come out more eas-  
ily. The gasoline or benzine will re-  
move all traces of the medium.

**Healthy Calling.**  
Of eight English clergymen whose  
deaths were recorded in one week a  
short time ago, the ages aggregated  
590 years, the oldest being ninety-two  
and the youngest fifty-seven, writes  
a correspondent. "This high average  
of just under seventy-four years is  
either an uncommon record or attests  
the longevity of the "cloth."

**Use Soap.**  
If the belt on your sewing machine  
loosens, rub it with plain yellow soap  
and it will help until you can have it  
fixed.

**Both to Blame.**  
"I think," said Dr. Smith, "that bad  
cooks supply us with half our pa-  
tients." "That's a fact," said old Dr.  
Brown. "And good cooks supply us  
with the other 50 per cent."—Journal  
of the American Medical Association.

**Birds Mentioned in Bible.**  
Twenty-one birds are mentioned in  
the Bible: The bittern, cormorant,  
crane, cuckoo, dove, eagle, hawk,  
heron, kite, owl, partridge, pelican,  
pigeon, quail, raven, sparrow, swal-  
low, swan, stork, turtle and vulture.

**They All Do.**  
A Louisville girl announces that  
she "prefers matrimony to a vocal  
career." However, after she is mar-  
ried she'll no doubt find many op-  
portunities to use her voice.—Louis-  
ville Courier-Journal.

**Centered in Self.**  
"Some men," said Uncle Eben, "is  
so selfish dat dey'd be willin' to let  
the whole country suffer from drought  
rather than take a chance on a shower  
spoilin' deir own little picnic."

**On the Greek Stage.**  
On the Greek stage a drama, or  
acted story, consisted in reality of  
three dramas, called together a tri-  
logy, and performed consecutively in  
the course of one day.—Coleridge.

**Remove Stains.**  
Softened old stains with castor oil or  
lard and they will come out more eas-  
ily. The gasoline or benzine will re-  
move all traces of the medium.

**The Way of Women.**  
When the once-wealthy Mrs. Blank  
parted from her husband and decided  
to work for her living, she became a  
housemaid. Her first employer was a  
woman who, in other days, had been  
one of her own servants. It seemed a  
queer thing to do, but "the wretch al-  
ways worried me by giving me notice,"  
said the lady in reduced circumstances  
viciously; "she must have done it a  
half a dozen times. So I took the pos-  
ition—to give her notice, the wretch!  
And I did it, too, after the first week."

**Legendary Island Only for Women.**  
In the West Indies there is an old  
legend to the effect that among the  
innumerable small islands in the Car-  
ibbean sea there exists one that is in-  
habited only by women.

**Going a Little Too Far.**  
Two small boys were quarreling  
over the possession of a toy bank  
when a noted local financier, who was  
passing, stopped and said to the  
younger: "Shame on you, my boy.  
Don't you want him to save his money?"  
"I don't care what he does with  
his money," replied the youth. "But  
he wants to save mine along with it."

**Big Army of Gunners.**  
There were 3,895,122 licensed gun-  
ners in this country last year, and it  
is said that there are as many more  
who hunt game illegally. Of the to-  
tal, there are about 200,000 women.  
Pennsylvania leads the list with 401,  
130 hunters' licenses granted.

**First Trolley Car.**  
The first street car in the world op-  
erated with a wire suspended over-  
head, commonly known as a trolley  
wire, was in Kansas City, May 1, 1885,  
on a line south of Westport, an ex-  
tension beyond what was then known  
as the "Westport Horse Car Line."

**Cut Out for a Scientist.**  
Jud Tunkins says he guesses his  
boy is going to be a great scientist, be-  
cause he's always learning things at  
school that he can't explain so's the  
dads at home will understand 'em.

**Eider-Down Duck.**

There are two varieties of eider  
duck—the common eider and the  
king's eider, the latter supplying the  
down which is exported from Green-  
land, while that of the former comes  
mainly from Iceland. Ten thousand  
pounds of down is obtained annually  
from the latter country. The eider  
is larger than the common duck. The  
drake is black with a white back,  
while the female is brown with white  
spots.

**Roman Use of Concrete.**  
The Romans' discoveries in concrete  
mixing made it possible for them to  
make prodigious strides in engineer-  
ing and architecture. At the foot of  
Vesuvius were immense deposits of  
reddish sand or volcanic ash called  
pozzuolana, which, when added to lime  
mortar, made hydraulic cement. This  
gave to the Romans a concrete of  
extraordinary strength and perman-  
ence, which hardened under water as  
well as in the air, and became the  
basis of their entire system of building.

**Needed Immediate Attention.**  
A little miss, age four years, went to  
the country to spend a week with her  
married brother. He was bringing  
her home in his wagon drawn by two  
mules. On the way he stopped at a  
country store. While in the store one  
of the mules let out a "Hee-Haw."  
The little girl jumped out of the wagon  
and almost out of breath ran to her  
brother, exclaiming, "Oh, Alfred, come  
quick, one of the mules has the hic-  
coughs."

**Origin of Name Wood.**  
That the first who bore the name  
Wood dwelt near or adjacent to a  
wood there can be no reasonable  
doubt, for the name first appears as  
Atte-Wolde, which meant "at the  
wood." Later the name became Att-  
wood and in some cases this was  
changed to Atwood, which was later  
contracted to Wood. Sometimes it re-  
mained Atwood, a name that is still  
to be found in England.

**Happy Ending.**  
"I have just heard of a woman who  
went to a hotel unaccompanied and  
discovered that the acoustic properties  
of her room were such that every  
time she spoke aloud there was an  
echo. She then made a bold attempt  
to get in a last word, and in so doing  
talked herself to death."—Portland  
Express and Advertiser.
